- Texas Miller & Levine Biology Student eText
- Texas Biología eText para el estudiante
- Texas Miller & Levine Biology Digital Glossary
- Texas Miller & Levine Biology Accessible Student Edition

Hide

Click on the Texas Miller & Levine Biology Student eText.

Exit Texas Miller & Levine Biology Student eText

Open in new window

You can access the unit from the table of contents on the right or you can search the term you are looking to define.

The screenshot shows a web browser window displaying the Pearson eText interface. The address bar shows the URL: view.etext.home2.pearsoncmg.com/ebook/launchText.do?values=platform:1099;bookID:1010270;scenario:16;scenario:16;invokeType:lms;launchState:.... The Pearson logo is visible at the top left, and the user is identified as 'Welcome Gustavo Arechiga'. The main content area features the title 'Miller & Levine BIOLOGY' in large green letters over a background image of a bird. On the left side, there is a 'Table of Contents' sidebar with a tree view showing units from 'Unit 1: The Nature of Life' to 'Unit 7: Animals', along with 'End Matter Contents' and 'Science Skills Handbook'. A blue arrow points from the text above to the search bar, and another blue arrow points from the text above to the 'Table of Contents' sidebar.

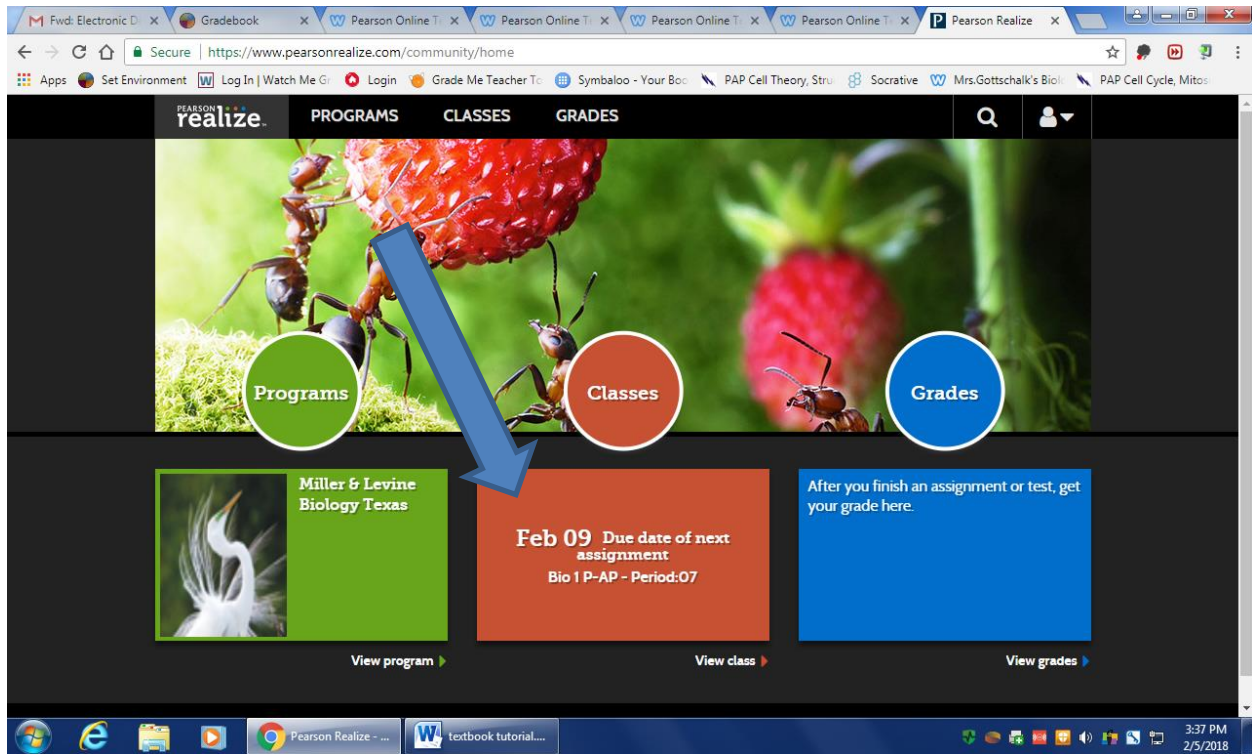

The Glossary can be accessed from the Table of Contents.

The screenshot shows the Pearson eText interface displaying the 'Glossary' page. The address bar is the same as in the previous screenshot. The Pearson logo and user name are also present. The main content area is titled 'Glossary' in a green box. Below the title, there is a section for the letter 'A' with several definitions. The definitions are as follows:

- abiotic factor:** physical, or nonliving, factor that shapes an ecosystem (66)
factor abiótico: factor físico, o inanimado, que da forma a un ecosistema
- abscisic acid:** plant hormone that inhibits cell division and, therefore, growth (711)
ácido abscísico: hormona vegetal que inhibe la división celular y, por ende, el crecimiento
- acid:** compound that forms hydrogen ions (H⁺) in solution; a solution with a pH of less than 7 (44)
ácido: compuesto que en una solución produce iones hidrógeno (H⁺); una solución con un pH inferior a 7
- acid rain:** rain containing nitric and sulfuric acids (164)
lluvia ácida: lluvia que contiene ácido nítrico y ácido sulfúrico
- aggression:** threatening behavior that one animal uses to exert dominance over another animal (848)
agresión: comportamiento amenazador que emplea un animal para ejercer control sobre otro animal
- algal bloom:** increase in the amount of algae and other producers that results from a large input of a limiting nutrient (611)
floreCIMIENTO de algas: aumento de la cantidad de algas y otros productores debido a una gran entrada de un nutriente limitante
- allele:** one of a number of different forms of a gene (310)
alelo: cada una de las diversas formas de un gen
- allele frequency:** number of times that an allele occurs in a gene pool as a percentage of the total occurrence of all alleles for that gene in that gene pool (483)
frecuencia alélica: número de veces que aparece un alelo en un caudal genético como porcentaje del número total de alelos de ese gen en ese caudal genético
- alternation of generations:** life cycle that has two alternating phases—a haploid (N) phase and diploid (2N) phase (608, 637)
alternancia de generaciones: ciclo vital con dos fases que

The 'Table of Contents' sidebar on the left is visible, with 'Glossary' selected. A blue arrow points from the text above to the 'Glossary' entry in the sidebar.

Homework Assignment and due dates will display under the Classes category.

A list of all assigned work will display along with due dates and progress status.
